

PROJECT FLOW

Team ID: PNT2022TMID45847

Project Name: Visualizing and Predicting Heart Diseases with an Interactive Dash Board

IBM Cloud Account

The screenshot displays the IBM Cloud user interface. At the top, a dark navigation bar includes the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Hemachandran C's Acc...). On the right of this bar are icons for help, calendar, document, notifications, and a user profile. Below the navigation bar, the main content area is titled 'Dashboard'. A left sidebar contains various service icons. The central 'For you' section features five cards: 'Build' (purple), 'Set up your IBM Cloud account' (10 min), 'Build a web app with Watson Speech to Text' (15 min), 'IBM Push Notifications' (2 min), and 'Build a Virtual Private Cloud (VPC)' (7 min). Each card includes a brief description and a 'Getting started' or 'Recommended' button. To the right of the dashboard is a user profile dropdown menu for Hemachandran C, with options for Profile, Log in to CLI and API, Privacy, Change theme, and Log out. Below the dashboard, a 'News' section lists recent updates, including 'IBM Tech Now: November 7, 2022' and 'Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS'. Other sections visible include 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'.
